TECHNICAL DATA SHEET

Product Name: IODO ORAL SOLUBLE®

FORMULA:

Iodine (as I ₂ /IK)	300 mg
Copper Sulfate	600 mg
Cobalt Chloride	300 mg
Manganese Sulfate	650 mg
Sodium Glycerophosphate	1000 mg
Formulation agents q.s. to	100 ml

TARGET SPECIES:

Cattle, swine, sheep, goats, equines.

INDICATIONS:

Prevention of iodine, cobalt, copper, manganese, and phosphorus deficiencies. Mineral deficiencies are common in the diet of these animals due to poor pastures on depleted soils or digestive disorders that prevent proper forage assimilation. The appropriate combination of Iodo Oral Soluble in its active components provides an effective tool to correct copper, cobalt, and manganese deficiencies. It promotes protein synthesis, allowing a positive balance during fattening, gestation, and lactation.

PRESENTATION:

Plastic containers of 1, 2, 5, 10, 20, and 50 liters. Drums of 200 liters.

Front and back labeling. Screw cap with safety seal.

APPEARANCE:

Clear brown solution.

DOSAGE AND ADMINISTRATION:

Oral route in drinking water.

As the product is to be diluted 1:10,000, the dose will be directly related to the water intake of the animals, which, in addition to natural individual variation, will be influenced by climatic conditions of temperature and humidity. Therefore, it is impossible to determine the dosage per kilogram.
